- Built using Ajax, jQuery, JavaScript and Firebase

RELEVANT EXPERIENCE

Hewlett Packard   03/1997 - 4/2014
Project Manager/System Administrator
•Responsible for migration of 800 + high availability airline databases from Oracle 11g to and Oracle Rac environment. Worked with teams of 4 to 8 developers, and system engineers to complete all necessary task to assure the clients a successful migration with minimal down time.
•Successfully completed application development projects necessary for migration US Airway into the Sabre systems. Also was responsible for infrastructure projects that were required for the migration.
